HORRORS OF WRECK CHANGE WOMAN'S HAIR TO GRAY

Thrown Into Sea by Husband,
Mrs. Geo. Goodsell Lives
to Tell the Tale

(By International News Service)

EUREKA, Cal., Aug. 10.—As an illustration of the horrors experienced by the passengers of the foundered steamer Alaska, Mrs. George Goodsell's hair, brown when she left Seattle for Oakland, has turned gray. Mrs. Goodsell, in company with her husband, were playing cards when the Alaska struck the reef. They rushed to the deck and unable to find a place in any of the boats, Goodsell picked her up, threw her overboard and leaped after her. They were picked up by a life boat later and landed safely in Eureka by the steamer Anxoy.

WRECKAGE COMES ASHORE

Interest in the wreck here has shifted to the rocky coast along the cape, where wreckage and bodies are coming ashore. Ranchers in the cape district are reaping a rich harvest in grain, flour and other salvage cast upon the beach by the tides, as the ship breaks up and gives its cargo to the sea.

With most of the refugees landed here by the Anxoy from the ill-fated steamer Alaska, which went down on Blunt's reef late last Saturday night either already at their homes or on their way, relief work slackened here today, save in a few cases where the injured are confined in the local hospitals.

MANY BODIES IDENTIFIED

Nearly all of the 18 bodies recovered from the wreck have been identified, but no more have been recovered. The body of a little girl, brought in Sunday night by A. Anderson, a fisherman, was identified yesterday by Murrel Dyer, of Oakland, as Elaine Dyer, his niece. The twin brother of the little girl and her mother are still missing, while the father, Owen Dyer, and another child, Arla Dyer, are confined in the Sequoia hospital.

Arrangements have been made for the shipment and some of the bodies identified have already been forwarded to their various homes.

THIS FISH STORY SOUNDS ALL RIGHT

E. J. Jackson, of the Burbank Hardware Company, and Gus Wangenheim and C. E. Neale, of the Neale & Gregg Hardware Company, of this city, left Glendale at 3 o'clock Tuesday morning for Santa Monica on a pleasure fishing trip. Before noon they had pulled in 125 mackerel. In the afternoon a plate filled with these fish was placed in a window at the Neale & Gregg Hardware Company store and the public given an opportunity to name the exact number of fish in the plate. By 5 o'clock more than fifty had given in their guess, ranging from 25 to 130.

Mr. Gamble, a city letter carrier, and Mr. Tuttle of Tropico, named the exact number, 27. The mess in the plate was then equally divided between the two correct guessers.

MRS. GATTO ROBBED

Mrs. Samuel Gatto, 1400 East Colorado street, reported yesterday that someone broke into her store, Monday night, and took between \$50 and \$60 worth of goods. Canned goods, tobacco and a small camera were among the things stolen.

SAN JOSE STILL FAST

SAN FRANCISCO, Aug. 10.—Latest radio advices picked up by the United States naval radio station at Yerba Buena Island today, stated that the Pacific mail liner San Jose, was still fast on San Roque Island, off the Mexican coast.

DAVISON NOT IN DANGER

GLENN COVE, L. I., Aug. 10.—Emphatic denial that H. P. Davison, partner of J. P. Morgan, is seriously ill, as reported, was made today at his home at Peacock Point, Locustville, by members of his family.

BLAME EMPTY BOTTLE

PORTLAND, Ore., Aug. 10.—From time immemorial bottles have started all sorts of trouble—but they were bottles filled with liquids.

And now comes an empty bottle with the charge against it of having started a forest fire.

John S. Brender, district ranger of the Wenatchee National Forest, reports a fire which started in the forest recently and that originated in an empty pickle bottle.

Brender, while cruising about in the forest, discovered a burned spot, with the bottle in the center of it. His investigation showed a bubble in the glass that had focussed the sun's rays and started the fire, according to his report sent to forest headquarters here.

1000 BUFFALO TO BE SLAUGHTERED BY CANADIANS

(By International News Service)

WAINWRIGHT, Alberta, Aug. 10.

One thousand buffalo in the national park at Wainwright, will be slaughtered this year, according to Government plans. The park contains only 5,000 at present.

It could hold 25,000, but the maximum number contemplated by the Government is 10,000. It is necessary to winter-feed on hay and the hay meadows of the park will not furnish much more than enough for 10,000 buffalo. Those picked for slaughter, however, will be mostly bulls. There is a large surplus of bulls in the herd and the elimination of a great percent of them will do the herd no harm.

The slaughtered animals will be sold in the markets of Canada and the United States. Buffalo meat sells at a high price and the robes and heads will bring large sums. Mounted heads taken from a few bulls accidentally killed in the park sold last fall in Montreal for \$250 apiece.

Wainwright Park is located in the heart of the old buffalo country. Buffalo blackened the prairie when the Hudson's Bay Company was paramount lord of Western Canada. Now the old empire of the company has departed. Its trapping grounds have moved north as civilization has advanced and no buffalo except in parks are left between the International Boundary and the Mackenzie River. In the Far North Canada's only wild herd still remains.

CAPT. T. D. WATSON INQUIRY WITNESS

Captain Thomas D. Watson this morning appeared as a witness before the court of inquiry recently appointed by J. J. Boree, adjutant general, to investigate the case of Major E. E. Kirk, of the 160 Infantry, Los Angeles, whom it is alleged was active in I. W. W. affairs in 1912. Captain Watson is one of the first witnesses to be subpoenaed. The recorder of the court of inquiry is Lieut. Normal C. Hayhurst, also of the Glendale Company of National Guard.

ANDREWS' SEDAN LANDS IN FIELD

A Ford sedan, in which Morris Andrews, 108 North Everett street, and Miss Mary A. Farrell, East Broadway, were riding, was damaged when it ran through a fence into a barley field last night. The accident happened on the Verdugo road near Windsor avenue. Andrews says that as his sedan was approaching the point of the accident, he became confused by the glaring lights of an approaching machine, and lost all sense of direction until the sedan was in the barley field. The occupants were not injured.

FIGHT ON HIGHWAY; ROSS AGAINST BLICK

While driving north on the San Fernando road, near the Glendale city limits, last night, the car of W. C. Blick, 2006 Berkeley street, Los Angeles, was forced off the road, according to Blick, by a machine operated by August Ross, of Pacoima. Blick says he called to Ross to "get over," whereupon Ross, according to Blick, stopped, ran back to where he (Blick) had pulled up alongside the road and proceeded to "beat him up." At least this is the tale told to the Glendale police, who expect Blick to swear to a warrant for the arrest of Ross, today.

GLENDALÉ, IN GALA ATTIRE, TO HOLD CELEBRATION

Completion of Chamber of
Commerce Building Will
Cause Rejoicing

A two-day celebration will mark the completion of the new Citizens' building, sometime between October 15 and November 1, it was announced today by J. M. Rhoades, secretary of the Chamber of Commerce.

"We will have a celebration that will take in everyone in Glendale in an old-fashioned get-together meeting," said Mr. Rhoades. "We are planning to have a dance in the big auditorium, a big dinner, served from the kitchen of the building, all sorts of competitions, and the streets of the city dressed in gala attire.

STATE BOOTHS

"One of the distinctive ideas for the two days, is the opening of booths representing every state in the Union. We shall urge the natives of the different states to register at their booth and leave there the names of friends in their home town, so we can send them literature.

"We want to make the two days red-letter days in Glendale development that will long be remembered. While all the plans have not been formulated, the main idea is to have everybody in Glendale come to the new building and meet everybody else in the city.

GOVERNOR WILL SPEAK

"The principal speaker of the day will be Governor Stephens, of California, if it can possibly be arranged. In fact, we are sure of his presence, although he has not yet signified his availability.

"The new building is to cost \$60,000, and will be practically self-sustaining from the day it opens.

"The auditorium will give us our first large assembly room. It will have an ideal dancing floor, and in this connection, will be available for dances held by fraternal organizations and others."

NO SLEEPING ROOM HERE, SAYS HART

"Where will they sleep?"

That's the question that is concerning many Glendale realty men, according to L. A. Hart of the Hart Realty Co., 120 North Brand boulevard, who predicted this morning that there will be an influx of easterners this fall greater than ever before.

The real estate business will boom, declares Mr. Hart, and as an indication of the fact that people from the east have their minds set on Southern California, he pointed out that thus far this week he has been approached by tourists from the middle west and cities as far off as Boston and Jacksonville, Fla., who are in search of homes.

Most of these tourists, it appears, desire to rent homes and are consequently doomed to disappointment. Many of the people now coming from the east, motor here. One tourist arrived with his family on a truck which had been fitted up to accommodate six persons.

These new arrivals, says Mr. Hart, report that they have passed scores of people on the roads en route to Los Angeles, or some of the suburban towns.

"If conditions are as they are described to me," asserts Mr. Hart, "there seems to be no question but what building here will not only maintain itself, but will probably exceed its past records."

JACKIE COOGAN IS ILL IN GLENDALE

Jackie Coogan, the 7-year-old motion picture star of Hollywood, was taken to the Glendale Sanitarium Monday evening. He is suffering from a very severe cold, which borders on pneumonia. The little fellow is now under the personal care of Dr. H. G. Westphal, supervising physician of the institution, and at last reports was getting along nicely. Jackie says that he wants to hurry and get well, as he is under contract to begin work at the Brunton studios in Hollywood on August 15.

UNDER AMERICAN EYES

WASHINGTON, Aug. 10.—Not a pound of American food will move through famine-stricken Russia except under the watchful eyes of American directors. It was stated today by Herbert Hoover, head of the American relief commission, which is undertaking the feeding of starving thousands on a colossal scale.

"BOY, PAGE MISS THRIFT!"

She was a little tot, all dressed up in fluff, white things, and she hugged a pound coffee can tightly as she came through the doors of the Glendale Savings bank, with her mother.

"She wants to open an account," said the mother, to Cashier H. E. Francis.

Thereupon, the tot tiptoed and stretched the coffee tin up to the counter, before the window. Francis took the can. It was filled to the brim with pennies.

"Twelve hundred cents," he announced, after the coppers had been counted. "How old is she?"

"Two years and a half," said the mother. "She has been saving a long, long time."

After the little one had departed, hugging a savings deposit book to her breast, Francis spent fifteen minutes putting the pennies into cartons.

"We have depositors one day old," he said, "and they run up to almost a century in age. The thrift instinct knows no age limit."

"LEFTY" HERMAN TO PLAY BALL WITH TYRUS COBB

Floyd ("Lefty") Herman, right fielder for Gus Gleichman's Eskimos,

and at one time the star player on the Glendale High School team, is to get his chance in the "big tent" next season, according to an announcement made by Deacon White yesterday. A deal by which Detroit secures the services of Herman was consummated over the week-end, and Lefty will report to Tyrus Cobb's outfit at the end of the Western Canada league season. It is understood that a goodly sum of money was turned over to the Edmontonton Club in the transaction, and besides the cash consideration the Detroit club undertakes to supply a number of players for the Eskimo squad next year.

Herman has gained considerable fame because of his ability to wallop the apple hard, far and often, and to date he has a batting average of about .350.

This is Herman's first season in organized ball. Gleichman discovered him in California in the spring, where he was playing high school and semi-pro ball. He is 18 years old and stands 6 feet 1 inch in his holeproofs.

OPEN MUFFLERS CAUSE ARRESTS

There has been too much noise in Glendale during the past few days, and as a result, the Glendale police have decided to clamp the lid on a little tighter. Yesterday, the following motorists were "tagged" for operating their machines with open mufflers: E. C. Stockwell, 4340 Melbourne avenue, Los Angeles; Joe Cornaggie, 665 El Serano street, Los Angeles; C. Dolan, 322 West Howard street, Glendale; J. W. Potts, 1409 Ridgeway street, Los Angeles; and E. J. Rensink, 2294 Crestmore place, Los Angeles.

William Bender, 2518 West Eighth street, Los Angeles, was taken in for cutting the corner at Los Feliz road and San Fernando road, as was also F. P. Dunn, 704 North Maryland avenue, who disregarded the button at the corner of Wilson and Howard streets.

Clarence P. Fry, 4519 Temple street, Los Angeles, was arrested for turning on Brand boulevard, between Broadway and Wilson.

All of these alleged offenders are scheduled to appear before Judge at 10 o'clock on Friday morning.

ROLLED-DOWN HOSE CAUSE FAT ANKLES

SAN FRANCISCO, Aug. 10.—Rolled-down hose are doomed. The death knell of this fad was sounded when Dr. Adolph Gottschalk, dean of the California College of Chiropractic, addressing the tenth annual convention of the National Chiropractic Association, announced that rolled-down hose cause fat ankles.

"Rolled-down hose expose the knees and disturb the circulation, which leads to fat ankles and feet trouble," he said.

In wearing French heels, the doctor declared, women invite curvature of the spine.

HEARKEN, GOLFERS! CLUBHOUSE, LINKS MAY BE YOURS

Chamber of Commerce Will
Get Behind Verdugo
Woodlands Plan

A country club, with golf links, a spacious house and outbuildings, and the erection of a number of homes in the Verdugo Woodlands, is under serious discussion, as a result of the visit yesterday of the Chamber of Commerce directors to the Newport company operations.

To organize such a club, on the line proposed, would cost about \$300,000, it is estimated. It is figured that \$10,000 a hole of the course would cover all the expense and deliver the club, links and entire equipment to the membership. On an eighteen-hole course, this would mean \$180,000. The remainder of the money would be used for acreage, which could be cut up into home sites, upon which bungalows could be constructed and sold to members, who might prefer to live close to the club.

GROUND MAY COST \$150,000

Tentatively, it was said that 300 acres would cover the ground plans of the organization. This acreage, it was estimated, would cost \$500 an acre of \$150,000.

The money, it was believed, could be raised by a selected membership of 350, each paying an initiation fee of \$500 and perhaps dues of \$150 or less a month.

The success of the Sunset Country club, it was pointed out, has demonstrated the value of such charter membership. The initial memberships were sold for a nominal figure. Bids for the purchase of these memberships have reached several hundred dollars, and there is a long waiting list of late applicants.

It was felt yesterday, at the Woodlands, that not only would the Newport company enterprise be particularly benefited by building the club in that section, but that the Newport company, being alive to the advantage of having it there, would contribute handsomely to the project. By keeping the club small and exclusive in membership, the value of the charter memberships would be considerably enhanced in a short time.

RHODES FAVORS CLUB

"We should have a country club," said J. M. Rhoades, secretary of the Chamber of Commerce, today. "I was much impressed with the discussion at the Woodlands on the subject."

"It would draw to us a class of citizens who are highly desirable in any community, and afford our own citizens a place for recreation. It would draw our citizenship into more intimate relationship than has been possible heretofore, because of divergence of interests."

GIRL SCOUTS GIVE FREELY OF MEANS

The reading of an interesting letter from Ruth Dana, who is in the Santa Barbara mountains, was one of the features of the meeting of Girl Scouts held at the Intermediate School, Tuesday afternoon, under the direction of their leader, Miss Gladys Sharpe.

A report of receipts of \$13 from the candy scale of last Saturday was presented, and the troop voted to send \$10 of the amount to the David and Margaret Orphanage at La Verne. At the same time they will forward a box of clothing, which the girls have been collecting for some time.

It was agreed that another meeting should be held at Brookside Park within the next few weeks, and a real hike be enjoyed before school opens. Twenty-five members were present.

U. S. ADMIRAL IS CALLED BY DEATH

SAN FRANCISCO, Aug. 10.—Veterans of the United States navy all over the world heard with regret today of the death of Rear-Admiral George Fink Kutz, U. S. N., 86, who died suddenly at his hotel here late Tuesday.

Rear-Admiral Kutz was the second oldest living rear admiral of the navy and participated in most of the important naval engagements of the Civil War. He retired in 1896 after 40 years' service. He was on the frigate Niagara when that vessel laid the first Atlantic cable in 1857. He was born in Wilkesbarre, Pa., in 1835.

BRITISH SUFFER LOSSES

LONDON, Aug. 10.—Fresh fighting has broken out in Upper Silesia, and this time, Polish insurgents have clashed with British troops, said a dispatch received here today. The British suffered some losses.

WIFE OPPOSES HUBBY

VANCOUVER, B. C., Aug. 10.—Husband and wife, both occupying official positions securing a debate on public utility by-law in which they take opposite sides is the spectacle that is amusing the suburb of West Vancouver. School Trustee Mrs. Morgan wants the taxpayers to endorse expenditure for equipment. Reeve (rural Mayor) Morgan is naturally opposed to the school board spending any money, believing the Municipal Council, of which he is the head, can do all the spending the taxpayers require. Public meetings are being held at which both appear on the platform and "hand it" to each other in their respective public capacities to the delight of the audience. Betting on the outcome is even.

MILLIONS INVOLVED IN KERN COUNTY LEGAL BATTLE

(By International News Service)

VISALIA, Cal., Aug. 10.—Acting under instructions from President Harding, the famous Honolulu Consolidated Company Elk Hill land title case was today reopened before Register Ellen and Receiver Ferguson, of the United States Land Offices here. The suit, which involves title to 4,880 acres of alleged oil-bearing land in Kern County valued at approximately \$10,000,000, is directed by the United States Government against the Buena Vista Land and Development Company, the State of California and the Honolulu Consolidated Oil Company as intervenors.

The State claims title under indemnity selections made prior to the Taft Withdrawal act of 1909, which placed the land in Naval Oil Reserve No. 2. The Buena Vista company is the assignee of the State. The Honolulu company claims the right to drill for oil under Government lease granted by reason of fillings made prior to the withdrawal act. The hearing is to determine whether or not the land is oil bearing. Upon that point rests the decision.

In the first hearing the State's claim was not sustained, and the new hearing was granted on petition of the Buena Vista company for a rehearing. It is expected several weeks will be occupied in taking the testimony.

STARVATION ZONE 800 MILES LONG

(By International News Service)

LONDON, Aug. 10.—Eighteen millions of Russians are facing death in the famine district, according to the latest estimates from Riga today.

The starvation zone is 800 miles long, stretching along the middle and lower Volga valley.

The cholera cases now number 40,000.

Eighty per cent of the cholera victims are residents of towns. The population of the district infected with cholera is about 500,000.

It is believed that Russia, outside of the actual famine zone, has enough food to last six weeks.

GOV. SMALL'S "OPENING SHOT"

SPRINGFIELD, Ill., Aug. 10.—Governor Len Small of Illinois, arrested, held captive, and finally liberated under \$50,000 bonds, today was reported as planning to test the legality of his arrest through habeas corpus proceedings. This action, it was learned today, is intended as the "opening shot" in a retaliatory offensive. The bonds, under which the governor obtained his release, will be the means by which he will officially test his arrest before a court outside of Sangamon county.

M'KENNEY BURIAL SERVICES FRIDAY

Funeral services will be held Friday afternoon at 2 o'clock in the Little Church of the Flowers, in Forest Lawn Memorial Park, for Charles E. McKenney, who died at Monrovia, August 8, at the age of 32 years. He leaves a widow, Mary E. McKenney, and a son, Charles E. McKenney, Jr., also a sister, Ruth McKenney Hill. He was the son of Mr. and Mrs. Frank B. McKenney, now of Venice, who formerly resided in this city on Euclid street, and conducted a furniture and hardware business on San Fernando road.

The Episcopal service will be used and the L. G. Scovern Company will be in charge.

TAXABLE PROPERTY VALUES SOARING IN GLENDALE

Total Will Reach \$12,714,190
and City's Needs Call for
Only \$160,185.50

With a total net valuation for taxation purposes in real and personal property of \$12,714,190, for 1921, the city will need only \$160,185.50 to meet all expenses to operate this year, according to figures given out by City Treasurer John W. Stauffer, today.

The items of expense include the general budget; the library fund; fire apparatus bonds authorized, of the 1907 and the 1912 issues; city hall and library site bonds, of 1911; street improvement bonds of 1912; fire bonds of 1917; Tropico fire bonds, of 1913, and the park bonds of 1921, to gether with the maintenance of the park playground and recreation fund.

The property owners of Verdugo Canyon, improvement district No. 3, will pay in addition to their share of the cost of operating the city, \$3,000 among them for the sewerage and improvement district No. 4 for the water system to Grand View will pay \$1,800 additional for this improvement.

WHY OF TAX INCREASE

The increase in the tax rate this year was to provide for the interest and redemption sinking fund on the bonds voted this year and the doubled cost of operating the Glendale library. The tax rate on the old issues was really lowered, according to the city treasurer, because of the increased assessed valuation of property in the city.

The total net valuation of property for taxation purposes this year of \$12,714,190, shows a marked increase over that of 1920 when it stood at \$9,384,535, itself an advance over 1919 when the total was \$7,692,355, giving an increased valuation of \$5,021,195 in three years, a fair index of the growth of the city for taxation purposes.

The assessed valuation by districts shows that the old city of Glendale still leads in tax paying on both real and personal property, having \$5,679,490 real and \$267,385 personal property valuations against a total for both of \$4,439,790 for last year.

ARDEN AVENUE DISTRICT

The Arden Avenue district shows \$58,345 real and \$510 personal tax values, against a total of only \$55,705 for last year. Grand View avenue has doubled in valuation with \$421,670 real and \$2,095 personal, against \$278,420 for last year. Tropico has a good gain, showing \$1,874,195 real and \$55,950 personal, compared with \$1,611,475 for last year. Valley View and Kenilworth shows \$550,120 real and \$150,000 personal, compared with \$382,400 last year. Verdugo Canyon has increased nearly \$400,000 in taxable land values, showing \$1,555,425 in realty and \$8,160 personal, against \$1,190,135, total for both values last year.

West Glendale has advanced in realty values more than half a million, showing \$1,835,990 real and \$31,800 personal values, compared with a total of \$1,321,170 last year.

The Remington Annex shows \$119,650 real, and \$1,825 personal, assessed valuations for taxation, against \$105,440 for last year.

IN COLD FIGURES

The distribution of the money required to run the city is shown in the following tabulation by the city treasurer:

General Budget Fund	\$124,776.75
Library Fund (almost double last year)	20,000.00
Fire Apparatus Bonds, 1907	329.00
Fire Apparatus Bonds, 1912	1,400.00
City Hall and Library Site bonds, 1911	1,293.75
Street Improvement Bonds, 1912	550.00
Fire Bonds, 1917	1,700.00
Tropico Fire Bonds, 1913	1,625.00
Park Bonds, 1921	2,329.00
Maintenance Fund (parks, playgrounds, etc.)	6,300.00

HILLSIDE RESIDENTS UNITE FOR THE COMMON GOOD

Discuss School and Mail Needs
of Grand View and Pacific
Avenue Districts

The hand of fellowship was extended to about twenty-five guests from the newly annexed Pacific Avenue district by the Grand View Improvement Association last night, at a meeting attended by nearly one hundred persons, and over which H. C. Randall presided.

In inviting these new Glendaleans to join them, association officers voiced the opinion it would be better for all concerned to have one good, strong, organization covering the whole hillside, than several small bodies. Committees were appointed to canvass the entire Pacific District and to extend a personal invitation.

Special guests of the evening were members of the Glendale City Council, all of whom were present except Councilman Stephenson.

POSTAL SERVICE NEEDS
One of the most important matters considered was the procedure necessary to change the postal service of the district from the Burbank post-office to Glendale. A copy of the petition for this change was circulated and signed by some of the residents in the Pacific Avenue District present, who have been served through Burbank. When it has made the rounds of the two districts it will be turned over to T. W. Watson, city manager, and the Glendale Chamber of Commerce, to be forwarded by them, with letters of indorsement, to the fourth assistant postmaster general in charge of rural delivery in Washington. The Los Angeles office will have nothing to do with the matter. If the petition is granted, a special carrier will be added to the Glendale force to serve the territory.

TRANSPORTING OF CHILDREN
The school committee of the association was instructed to attend a meeting of the Glendale board of education to be held tomorrow night, at which the question of transporting Grand View children to Glendale schools will come up for discussion. Members had practically agreed the most satisfactory school location would be in the Vineyard tract on Sixth street, and Richardson D. White, superintendent of schools, indorsed it as being in every way suitable. Since that time the property is said to have passed into the control of Edwards & Wilkey for subdivision purposes and the association now wants to know whether it can be obtained voluntarily, or whether the land will have to be condemned.

Following the discussion of the matters mentioned, refreshments were served.

MEETING TWO WEEKS HENCE
Announcement was made that the next meeting of the Grand View Association will be held two weeks hence, at the same place, Bottsford's store room, on Sixth street, when reports will be made by the school committee of any action taken by the Glendale Board of Education, and the status of the postoffice petition will be declared.

A Matter of Principle
There are still conscientious fellows about who carry conviction into the slightest detail.

A bookseller had a letter from one of them recently, ordering a copy of Tennyson's poems, with the postscript, "Please do not send me one bound in calf, as I am a vegetarian."

TAKE SALTS TO FLUSH KIDNEYS

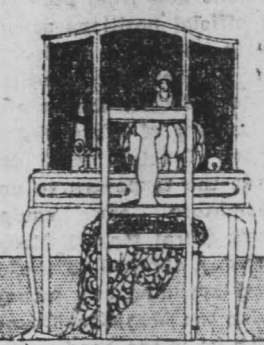

Eat Less Meat if You Feel
Backache or Have
Bladder Trouble

Meat forms uric acid which excites and overworks the kidneys in their efforts to filter it from the system. Regular eaters of meat must flush the kidneys occasionally. You must relieve them like you relieve your bowels; removing all the acids, waste and poisons, else you feel a dull misery in the kidney region, sharp pains in the back or sick headache, dizziness, your stomach sour, tongue is coated and when the weather is bad you have rheumatic twinges. The urine is cloudy, full of sediment; the channels often get irritated, obliging you to get up two or three times during the night.

To neutralize these irritating acids and flush off the body's urinous waste, get about four ounces of Jad Salts from any pharmacy; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine and bladder disorders disappear. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean and stimulate sluggish kidneys and stop bladder irritation. Jad Salts is inexpensive; harmless and makes a delightful effervescent alkali-water drink which millions of men and women take now and then, thus avoiding serious kidney and bladder diseases.

"Martha Malicia Goes Shopping"

OH! IT IS A JOY!

IMAGINE THE JOY of powdering one's nose before such a delightful little vanity dresser as this! And yet, Milady may have her bedroom furnished entirely with just such a lovely set, finished in charming old ivory and trimmed with delicately carved little rosebuds! Yes, at the ENTERPRISE FURNITURE COMPANY, of 216 East Broadway, I found this dainty set, consisting of a vanity dresser, a dressing table, chiffonier, bed, and rocker. Of course, you may buy the pieces separately or "en suite!"

AND IT WILL ENDURE A LIFE TIME!

A LARGE FAMILY WASHING accomplished within an hour and at a cost of only two cents is the record established by innumerable purchasers of the Thor No. 32, from the GLENDALE ELECTRIC COMPANY, of 132 North Brand boulevard! You see, the Thor has a new improved cylinder which is made of aluminum—and it's the only all metal cylinder that is entirely self-cleaning! Although it has an enormous capacity, the Thor is comparatively small and very light—the body being made of pressed steel. But the greatest surprise of all is the price—just think, only \$195.00 for the greatest labor-saving device of the age!

A grater is much better for taking the "burned" part from toast or cake than a knife. Rub the cake or toast with the grater rather gently and the burned parts will disappear, leaving a nice smooth, brown surface, not at all disagreeable to the taste and not unpleasant to look at.

J. F. STANFORD, of 112½ South Brand boulevard, is showing a lovely little bungalow of four rooms—just an ideal size for the small family! The price is only \$3900—think of it! Two sunny bedrooms, a luxurious built-in bath, hardwood floors and all of the modern built-in features! Yes, of course it's just brand new—never been occupied at all; and there's a garage, and a cement driveway already in. The terms are unusually low, too—only \$1000 down and the balance in monthly installments, just like rent!

String beans will cook in half the time if cut lengthwise instead of being broken into two parts.

"SKIRTS" STUNTS THRILL AT PALACE

What is considered one of the most sensational stunts ever attempted for motion pictures, was successfully filmed recently with Chester Conklin and Lieutenant Paul Thompson in the role of the aerial daredevils. The action takes place in "Skirts" one of the two headlines being shown again today at the Palace Grand Theatre.

Hampton Del Ruth, supervising director in charge of the production, rented two trains of four coaches each. These were to run on parallel tracks about a hundred yards apart between Pomona and Ontario, a distance of ten miles. On one of the trains, Del Ruth placed four cameramen whose instruments were clamped to the tops of the coaches. The second train carried the people who were appearing in this particular bit of action in "Skirts."

Lieutenant Thompson and Conklin took the air at Hollywood, arriving at twelve o'clock ready for their stunt. At a signal from Mr. Del Ruth, the trains got under way, with Miss Alta Allen, who is to be "rescued" on the roof of the middle coach of the second train.

So great was the plane's speed as it approached the car on which Miss Allen was poised that Thompson did not dare go lower than fifty feet. In stead he made a landing in an adjoining field and informed Mr. Del Ruth that the train would have to do at least fifty miles an hour—he did not dare risk the chance of killing Conklin by attempting the feat at the lesser speed. The scene was done at exactly the right instant. Conklin swung off the right plane of the ship, grabbed Miss Allen and both were carried to safety.

The second of the two pictures showing today is "Made in Heaven" with Tom Moore in the leading role. This Goldwyn photoplay presents Mr. Moore in a humorous character study. In "Made in Heaven," Mr. Moore becomes a fireman who rises eventually to a position of affluence and power. The plot centers about a

DON'T YOU JUST LOVE to dabble in paint and try to make artistic little decorations for your home? No doubt, it hadn't occurred to you that you might make these exquisite candelabras, such as you've admired in Art Shop windows! But you can make them just as beautifully as a master! L. H. ALLISON, of 105 West Broadway, has just laid in a supply of Bronze Powders. They come in all of the pretty, bright colors, and you need only mix them with banana oil—and they're ready to use! Just select your leaves or small branches to suit you, right out

of your own garden, perhaps, and apply the various-colored Bronze Powders which you've mixed, with a camel's hair brush! If you stop in at Allison's next time you're down town you can see how easily it is done. Mr. Allison also carries a full line of the E. R. Bohan Company Paints, and Berry Brothers Varnishes, and auto-colors—in short, a full line of everything that's up-to-date in the line of varnishes, paints and wall papers! And Allison also has some excellent wired extension ladders and also step ladders which he will sell very reasonably!

ciates these unusual and distinctive models! You know Hatz, at 132 South Brand boulevard, the home of the women's wear, is the local representative of the Silver-Leaf Line, made by M. Silverman!

Jam that has become hard and sugary can be made almost as good as new by placing it in the oven until the sugar melts, then taking it out and leaving it to cool.

A nickel holder in which is fitted a strong heavy plank enables the housewife to serve a delicious plank-steak or fish.

THEIR SUCCESS IS ASSURED

CHIC LITTLE TAILORED MODELS of duvetyne, taffeta and felt in all of the various colors are holding sway at the YARBROUGH HAT SHOP, of 108 West Broadway, for the opening of the new Fall season! Oh! yes, and those fetching little hats of gay colored feathers which Mrs. Yarbrough is showing this week, will play just as important a part in the wardrobe of the well-dressed woman—for with their dashing bits of color they do set off a tailored costume so well! And have you noticed how unusually reasonable the new Fall models are?

DELIGHTFULLY ORIENTAL
A GREAT DEAL OF FAVORABLE comment and interest has been created by HATZ's first showing of the early Fall models! And well it might, too, for they are all of them perfectly stunning! Particularly charming are the new Fall tailored models in suits—with their long lines and so plentifully embellished with bead and embroidery trimming! Oh! yes, and a number of them are attractively finished with squirrel or beaver chokers, too! The dresses shown seem to have a decidedly oriental tendency, for they are elaborately beaded and embroidered in those fascinating Chinese color combinations—those rich reds and blues and greens! Another interesting thing about these new gowns is the fact that they are almost all made with lovely flowing bell-shaped sleeves! It is the woman of discrimination who appreciates these unusual and distinctive models!

GLENDALE LOOKS GOOD TO ALSTON

"The fishing was immense, but Oh, my! it was cold," said Howard Alston, in describing the auto tour of the Yellowstone National Park from which he has just returned.

"On the Fourth of July there were four inches of snow, but it was worth all the trouble, privations and discomfort of the trip just to see Old Faithful spout. It was a great experience to count the trout in a pool so cold that it made your hand ache and see another pool alongside boiling hot."

Mr. Alston, who lives at 203 West Chestnut street, was accompanied by his wife, his brother, John Alston of Porterville, and William Rising. Their itinerary covered portions of Oregon, Washington and Northern California and they enjoyed every minute of it, but say no town looked so attractive as did Glendale when they returned to it.

FENCE FOR ATHLETIC FIELD

The board of trustees of the Glendale Union High School meeting last night in the offices of G. U. Moyses, principal, accepted bids for the erection of a fence around the athletic field. The contract for building the fence calls for its completion before the opening of school in September.

The difficulties in which she finds herself when a persistent suitor has to be appeased, together with the silence she has imposed upon her husband, create situations that make the play a sure cure for the tiredness of the tired business man and his wife.

Added to an unusually good comedy story is the fact that Mr. Moore is supported by two leading ladies, Helene Chadwick as his romantic wife and Molly Malone as her friend, an incorrigible match-maker.

AS MUSIC IS THE VERY ESSENCE of harmony, a phonograph's influence in the home is indispensable! The NEW ARTISTIC BRUNSWICK SHOPPE at 126 South Brand boulevard, has now made it possible for every one to own a Brunswick—the machine with those marvelous golden tones! Never before have the Brunswick people made a small machine—but they have just put on the market an ideal model for only \$65.00! This Brunswick comprises all of the exclusive features of the larger models—there is an excellent two spring motor, their own special automatic stop, and the Brunswick patented tone modifier! The tone chamber is modelled of especially selected and prepared woods, and by the way, it is this wonderful accomplishment which is in a large measure responsible for the beautifully mellow tone for which the Brunswick is famed! Really, this smaller machine is just a combination of the larger models, with the exception only of the record filing cabinet! The Brunswick is the ever present entertainer ready on a moment's notice to play with equal perfection the finest classics or the latest jazz! At the New Artistic Brunswick Shoppe, you may buy this wonderful machine in your choice of finishes, red or brown mahogany, flamed or golden oak, for only \$59.00 down and \$5.00 per month!

KILLGORE RESTS FROM THE OCEAN

Jason Killgore, who is making his home with his brother, Russell, at 118 Arden avenue, has but recently returned from a three-months' trip to Genoa, Italy, as radio operator on one of the United States Shipping Board's vessels, which carried a load of wheat from Portland, Oregon, to Genoa.

While the vessel was being unloaded, and made ready for the return trip, Mr. Killgore visited Rome, Florence, Naples and other points of interest.

NEW MEN'S GOODS
A full stock of shirts, sweaters, hats and caps is now coming into the Men's Furnishing Store, 110 North Brand boulevard. David Bisno, who is proprietor of the store, announces that he will have a desirable stock on hand within a few days that it should be difficult for any one to resist.

CITY EDUCATORS MEET TOMORROW

The Board of Education of the Glendale city schools will meet tomorrow night at 8 o'clock in the intermediate school. Business to come before the board includes a discussion of the matter of providing transportation for pupils in the Verdugo and Grand View districts to schools in Glendale. Both districts were recently annexed.

Both the Grand View and Verdugo districts are without schools, and pending the erection of schools, there is contended by patrons of those districts that transportation should be furnished to convey their children to schools here.

Pupils of the Grand View district were enrolled in the Burbank schools last year.

It is probable also that some action will be taken in regard to increasing the salaries of the superintendent of schools, the office force and the janitors. This step is taken, following the recent request of teachers in the district that their salaries be increased.

WHY DAVE DONWELL CLOSED HIS NO. 2

David Donwell, proprietor of the Little Premium markets at 123 North Glendale avenue and 1263 South Brand boulevard, announces that market No. 2, located in the Logan block, Casa Verdugo, has been closed, due to the fact that that section did not annex to the city of Glendale. "This caused the overhead expense to be so great that I could not afford to continue to sell my quality of meats at low prices, and rather than raise prices I decided to close at this temporary location," says Mr. Donwell. "As soon as suitable quarters can be secured, market No. 2 will be reopened. All orders will be filled at advertised prices from market No. 1."

BEAMISH IMPROVES "BUDDY" PLACE

P. C. Beamish, formerly of the Hill Top Waffle Shop, 507 West Third street, Los Angeles, has purchased the "Buddy" lunch room, 212½ South Brand. The new owner is completely remodeling the little place and promises to give his patrons the very finest kind of service. The place will be kept open from 7 in the morning until 8 at night, and regular meals will be served from 11 a. m. until closing time.

AUTO CLUB DEFINES ITS POSITION ON STATE ROADS

In a summarizing statement of the state highway situation, the Automobile Club of Southern California squarely places the responsibility for the adoption of adequate road building policies on Governor Stephens and his highway commission. The club summarizes its efforts to secure better roads as follows:

"In keeping with its general policy to promote good roads, the Automobile Club of Southern California has vigorously supported the State's highway program from the outset. The club not only advocated the various bond issues, but contributed men and money to the campaigns for them. The club will continue to be an earnest and steadfast advocate of good roads generally, and of the State's fine program in particular, always insisting, however, that the best interests of all the people be served and that road-building experience and the best engineering practice be utilized to provide for California a highway system that shall endure and shall not fall below the standard maintained in other states.

"For more than two years prior to the beginning of the engineering investigation, the club endeavored to cooperate with and to secure the cooperation of the California highway commission in remedying certain obvious defects. It was apparent that our highways were beginning to fail in many places and that more extensive and disastrous failures would occur unless remedial measures were taken.

"The club's engineering report attached no blame to the state board for early failures, recognizing that much of the work was in an untried field and with no definite knowledge of the extent of traffic increase. The criticism made by the club was, and is, directed at

THOUGHT FOR TODAY—The difference between the successful man and the unsuccessful one seems to be the difference between "Come to my office" and "I'll come to yours."

AN UNGROUNDED FEAR

Some of the French newspapers have expressed alarm over reports reaching them that the Washington disarmament conference is to be held in English and that the use of other language will not be permitted. Such a ruling would, of course, put the French at a disadvantage, also the Japanese and Italians. But the fear seems wholly unfounded. What will probably take place at Washington will be the same as that which has always prevailed at other world conferences—the delegates from each nation will speak in their native tongue and interpreters will make remarks intelligible to all.

The occasion, however, recalls anew the need for a universal language for diplomats. True, several artificial languages already exist and claim a right to be thus employed, but their chances for being accepted seem too remote to even be considered. The French language was once considered the language of diplomacy, but the rapid extent with which the English language is sweeping over the world makes English almost the language of diplomacy today. The Washington conference lends to its prestige and it is not at all unlikely that within a decade or so the English language will be commonly accepted as the language of all international courts.

Incidentally, those in this country who fear that French speakers visiting here will violate language laws in certain states, where the use of a foreign language at public assemblies is prohibited, are going a great way out of the road to find something to worry about. If, for example, General Foch addresses an audience and speaks in the French language, he will have an interpreter to translate his words into English. It seems incredible that anyone could honestly believe the foreign language law was intended, in spirit or letter, to prohibit such instances.

The question of smoking is settled for all time by the Boone (Iowa) Pioneer. If a man loves his wife, he will give up smoking for her; but if she loves him, she will not ask him to do it.

"If musical comedy goes the way of the legitimate, where will the next generation get its divorce co-respondents?" asks the Norfolk News. Why, from Hollywood, of course.

It is said that the latest feminine fashion fad in Paris is a handkerchief a yard square. When it gets frayed a bit about the edges the thrifty owner may make a frock out of it.

Instead of keeping the I. W. W. moving, the Des Moines Register suggests that it might be better to put them where they can keep wheelbarrows moving.

One sometimes wonders what Senator Borah thinks about all this praise which is bestowed on President Harding for calling the disarmament conference.

Well, anyway, modern bathing suits has obviated the necessity of teaching anatomy in the schools.

GRAVE AND GAY

The Labor Problem

A gentleman here from Georgia says the labor situation in the South this year reminds him of this story:

A Negro applied to a cotton plantation manager for work.

"All right," said the manager. "Come around in the morning and I'll put you to work and pay you what you are worth."

"No, sir, I can't do dat," replied the Negro. "I'se gittin' mo' than dat now."

The Englishman's Logic

"Rivers," said the American, "why your rivers are nothing to ours. Compared with our Hudson and Mississippi, your Mersey, Severn, and Thames are sleepy, sickly streams."

"Oh, come!" protested the Englishman. "I think your rivers are just as sickly as ours."

"How do you make that out?"

"Well, they are all confined to their beds," replied the visitor.

Unfit for His Job

"Father," asked the small son of an editor, "is Jupiter inhabited?"

"I don't know, my son," was the truthful answer.

"Father, are there any sea serpents?"

"I don't know, my son."

"Father, what does the North Pole look like?"

But, alas! again the answer: "I don't know, my son."

At last, in desperation, he inquired with withering emphasis: "Father, how did you get to be an editor?"

When Scot Met Scot

A Scotchman was strolling through the market-place one day with his faithful collie at his heels. Attracted by a fine display of shell and other fish, the Scot stopped to admire, per-

haps to purchase. The dog stood by gently wagging its tail while its master engaged the fishmonger in conversation.

Unfortunately for the dog, its tail dropped for a moment over a big basket of fine live lobsters. Instantly one of the largest lobsters snapped its claws on the tail and the surprised collie dashed off through the market, yelping with pain, while the lobster hung on grimly, though dashed violently from side to side. The fishmonger for a moment was speechless with indignity. Then turning to his prospective customer, he bawled:

"Mon! mon! whistle to yer dog! Whistle to yer dog!"

"Hoot, mon," returned the other complacently, "whistle to yer lobster!"

Good Reason

"I don't see why you call your place a bungalow," said Smith to his neighbor.

"Well, if it isn't a bungalow, what is it?" said the neighbor. "The job was a bungle, and I still owe for it."

Got Acquainted

"Having any success with your garden?"

"The best ever" replied Mr. Jagsby.

"What are you raising?"

"Nothing. But if I hadn't had a row with one of my neighbors over his chickens and then a reconciliation I might not have discovered that he has a well-stocked cellar."

Anxious to Suit

"Bridget," said her mistress to the new help, "we always want our meals promptly on the hour."

"Yes, mum," returned Bridget. "An' if I miss the first hour shall I wait for the next?"

WOMAN'S COZY CORNER

By JOSEPHINE FRANCE

From Garden and Orchard

Plum Conserve

6 pounds damson 2 cups seeded plums
raisins
1-2 cup hot water 2 1/2 pounds sugar
Juice 2 oranges
Wash and pick the plums, add to them the orange juice, raisins and sugar, and cook until transparent and thick. Pack hot in sterilized cans and seal air-tight.

Crabapple Marmalade

Use the pulp left over from crab-apple jelly. Rub it through a strainer, and for each cup of fruit-pulp allow three-quarters cup of sugar. Add lemon cut fine, allowing one-half lemon to every six cups of pulp. Cook very slowly, stirring constantly; continue cooking until thick. Any fruit-pulp or combination of fruit-pulp may be used. The lemon may be omitted.

Corn Relish

Two dozen ears sweet corn, two heads cabbage, four green peppers, eight onions, two cups sugar, one-half cup salt, one-eighth pound mustard, four pints vinegar. Remove seeds from peppers; chop peppers, onions and cabbage fine as desired in chopping bowl, add corn after removing from cob, add salt, sugar and mustard, mix well, add vinegar and cook all together; stir well while cooking, and seal while hot.

Sweet Cucumber Pickles

Wash clean the green cucumbers, soak them in brine over night; in the morning rinse, and cook until tender in a syrup of three pints sugar to one quart vinegar, and two tablespoons cinnamon bark, mace and pepper grains. Seal in glass jars.

Apple Butter

10 pounds apples 6 quarts cider
1 1/2 tablespoons 3 pounds pears
ground allspice 4 1/2 pounds sugar
2 tablespoons 2 tablespoons
ground cloves ground cinnamon
Juice 2 lemons
Wash, slice and weight the apples and pears. Place them in a kettle with the cider and cook the mixture until the fruit is tender. Press butter through a sieve to remove the seeds and skin. Add the sugar, spices

and lemon-juice to the pulp, return to the fire and cook slowly till of the desired consistency, stirring constantly. Pack hot in sterilized jars.

Chili Sauce

Cook eight good-sized ripe tomatoes until tender and run through collander. Cut four small, red mangoes and three medium-sized onions in small pieces and run through meat grinder. Mix with tomatoes and add one and a half teaspoons salt, one and a half teaspoons each of cinnamon and allspice, one and a half cups sugar and one and a half cups vinegar. Boil twenty minutes and seal while hot.

New Beet Pickles

Boil new beets until tender, slice and put into cans while hot. Have vinegar boiling hot, add two table-spoons sugar and a little salt for each quart can. Seal same as any fruit.

Mushroom Catsup

Pick over, wash and drain one peck of mushrooms, slice and put over the fire in a saucepan with one cup of water. Cook until mushrooms are soft, stirring often. Press through a sieve. To the pulp add one pint of vinegar, two tablespoons salt, one-half teaspoon Cayenne pepper, two table-spoons mustard, one teaspoon cinnamon, one-half teaspoon mace and one-half tablespoon cloves. Cook half an hour longer.

Canned Beets

Select small or medium-sized beets. Prepare as for immediate use. Leave on two or three inches of top to prevent bleeding, also be careful not to cut or break the skin. Boil, and when done, pour off the hot water and replace with cold. Let the beets cool in the water so that you can handle them. While beets are cooking, put into an agate or porcelain kettle enough vinegar for the number you are preparing. Add two cups granulated sugar to a quart of the vinegar, with pepper and salt to taste. Slice the cold beets, put them into the hot vinegar and let them remain on the fire until heated through.

WHAT FAN LETTERS MEAN

By HELENE CHADWICK

Every screen actor, of even fair popularity, receives numbers of letters a day from photoplay followers. The more popular one is, the more letters one receives. Tom Moore and Will Rogers, for instance, get hundreds a week. Mabel Normand, when she used to have her dressing room at the Goldwyn, would get on the same floor with hundreds of loads of them, and I have seen her fortunate in receiving my letter.

I say fortunate because fan letters are the weather vane of success shows the way the winds of success are blowing—strong or weak. They are the inspiration and encouragement and the constructive criticism of a great audience whose only direct contact with the screen actor is through the written page.

WHERE LETTERS HELP

You, and you, and you, can be a judge of my acting and can write me what you think about it, and while I may never have time to answer you I will take time to read your letter carefully and perhaps the next time you see me I will have dropped a mannerism you did not like or accentuated one that you did!

After all the great public is the judge, and it is only through fan letters that I can tell how I am being received by it. Every time some hesitant writer tells me that I probably am not interested in what she or he has to say, I want to answer "Oh but I am—more than you know."

The most wonderful things come to the screen artist in fan letters. Secret hopes and ambitions and intimate

confidings, and all these things help to keep an actor in touch with humanity. After all, you know, acting is merely a reflection of the emotions—the joys and sorrows that come to all people. When a fan letter tells me of these, the writer of that letter is giving me something very precious, and necessary to my art. Again, fan letters help the screen artist to forget himself. Because the nature of his art demands that he think a great deal about himself, and because, as we all know, too much self thinking puts an end to all art, that is another reason why fan letter mean so much to the actor.

HER MESSAGE TO ADMIRERS

I would like to tell all the high school girls who have written me of their dreams, that I am interested in all of them. I would like to tell all the young boys who have asked me for pictures that I want those pictures to be to them, not so much Helene Chadwick, Goldwyn actress, but an influence for their betterment—just as their sweet, frank admiration gives me something to live up to!

If I do not have time to answer personally the hundreds of messages that come to me, I do have time to send a little thought answer from my heart—for I love all the dear people who think enough of me to write to me.

The thing that fan letters have done to me, personally, is to give me the glorious thought that perhaps I mean something worth while in the lives of the people who have written them.

It is a star to hitch my wagon to!

STUDIO NEWS AND GOSSIP

"What can you do?" is always the initial question of a casting director when interviewing an actor seeking a role.

"I can only do in a fresh and new way the things that have been done a countless number of times and a countless number of ages ago," was the answer one casting director received and it was right then and there that Casson Ferguson received his start in motion pictures.

"Since that day Mr. Ferguson has played in a great many big picture successes, including a leading role in Pauline Frederick's picture 'Madame X' and in Betty Compson's recent picture which has yet to be released, 'At the End of the World.' At the present time he is enacting an important role in 'The Woman in the Case.' Miss Compson's second starring vehicle for Paramount.

"When a casting director hands you a slip of paper and tells you to answer the questions printed thereon what would you do but answer yes to all of them?" Mr. Ferguson

went on to say. "And by the way, have you ever seen an application blank?"

"Well, if you haven't you have missed a real treat. After they ask you every possible question since your birth date you will find seven little questions, and yet they say that seven is a lucky number. Here are the seven things they ask you about: Ride, Swim, Drive Auto, Dance, Fence, Specialty and Wardrobe—at least these are the seven used at the Lasky studio.

"Now if you were a hungry actor what would you say to these? Yes! Because you know you can do most anything or are willing to try when a nice contract appears on the horizon. I honestly think that 99 out of every 100 application blanks will bear the word 'yes' after these questions.

"When I first applied for a part in a picture I was determined to have a novel answer ready for the question that I knew was sure to come, 'What Can You Do?' Hence

Glendale Chapter of the American Red Cross is planning an intensive campaign for used clothes for shipment to needy persons in Central and Eastern Europe. This phase of the foreign production program is being conducted in cooperation with the American Friends Service Committee. Nation-wide appeal for contributions of used clothing is being made through The Saturday Evening Post, The Ladies Home Journal, and the Country Gentleman, in which prospective donors are instructed to get in touch with the nearest Red Cross representative or Chapter.

The call is for all kinds of warm and serviceable clothing in good condition, or for materials out of which to make garments. The local Chapter will receive contributions during August, and every interested citizen in Glendale is urged to remember that some garment he can do without may be just THE garment that will save the life of some suffering child. Garments for all ages are badly needed. They should be clean and in good repair.

Distribution is made in Czechoslovakia, Austria, Hungary, Poland, the Balkan and Baltic States, by the American Red Cross, through its Child Welfare Units, and other distribution machinery, and in Poland, Austria, Germany and Russia, by the American Friends Service Committee. Working in close cooperation in the countries in which the organizations are active, their representatives are careful to avoid duplication of effort.

Clothing may be left at the fire stations on East Broadway and Los Feliz road, and also at 347 North Brand Boulevard.

Chairman.

Round the Sport Circle with Jack Veieck International News Sporting Editor.

NEW YORK, August 10.—One by one the veterans whose names have been fixtures in the box scores for years are fading out of the major league limelight.

News of the release of such players as Lefty Tyler by the Cubs, Chet Thomas by the Indians and Eddie Ainsmith by the Tigers, has recently come drifting over the wires to remind us that Old Pop Time is still up to his pranks.

These players, great in their heyday, have outlived their usefulness in the big show, and there are many others who will soon be drifting back to the minor leagues or into permanent retirement.

Such tidbits on the sporting pages must surely furnish the young fellows in the minors with new inspiration. They know, or should know, that the coming of another spring will see many of their number trekking southward with the majors, and there isn't a bushier of promise but who has dreamed of graduating to big time.

It will not be so very long until fully 50 per cent of the real veterans now wearing the big league uniforms will pass along. Such players as Ketchich, Cutshaw, Killifer, Mihan, Johnson, Bodie, Nunamaker, Bush, Young, Roster, Graney, Daubert, Saltee and Toney, will come to the end of their strings as major league regulars, in from one to three more seasons. Some of them will pass along with the fading out of the present pennant races, and next spring the major league owners will no doubt experiment with a greater number of minor league recruits than at any time since before the war. Baseball needs the fire and speed of new and younger blood. The grand old pastime must be made speedier and more attractive, for this is a fast age and the fans demand the best.

He was full of vim when he first came up,
This vet with the sun-tanned brow;
He was swift of foot and his eye was keen,
They saw he was good as they'd ever seen,
But he's reading the down trail now.

He could run like sin when he first came up,
He could hit 'em most anywhere;
He could nab a fly in the garden deep,
Or spear a drive with an agile leap,
As it whizzed through the sun-baked air.

But now he is plodding the down-hill trail,
The seasons have claimed their toll;
He has lost his speed and his old-time snap,
He falters when fielding a lousy rap,
And they call him a game old soul.

'Twill not be long till he passes on,
Unable to go the pace;
And where he played, some husky lad,
With the strength and vigor he once had,
Will be shining in his place.

Fandom, taking a languid interest in the trials of the black White Sox, was not too deeply interested in other matters to pause and wonder whether or not some effort might be made to scatter the whitewash. At least two members of the indicted Sox, having been acquitted through the medium of a lack of evidence, can be counted on to make strong efforts to gain reinstatement. What chances have they? That's what interests the fans.

Will Judge Landis, as high commissioner of baseball, give these players a hearing? Will he consider their appeals for a liberal flourish of the kaiso-mine brush?

From the viewpoint of a far-off observer, and in keeping with the attitude Mr. Landis has taken all along, we do not believe that he will turn a hand to make things any easier for the erring athletes than they are at this writing. Certain it is, in the event any one of the indicted Chicago players is permitted to come back to the organized game, that fandom will rise in protest. He likes the game because he believes it is a game that is played excused it, in a way, with the same conclusion that the game was not to let it go at that. But he will not stand for any shenanigans. And no one knows this any better than "O. R."

Those present were Grace Judd, Garnet Peters, Margaret Frazee, Beulah Warren and Louise Wimmer, who will entertain the club next Tuesday afternoon at her home, 312 North Orange street.

Mr. and Mrs. George U. Moyle will leave tomorrow on a motor trip, to last until September 1, which will take them up the coast as far as Monterey. They will carry a complete camping outfit with them, so that overcrowded hotels will hold no terrors. Mr. Moyle stated this morning that he plans to spend the greater part of his vacation in the vicinity of Santa Cruz and Monterey. He will rest up to be ready for the opening of school in September.

Quite uneventful was the meeting of Mary Jane Gillette Tent, Daughters of Veterans, which took place last night at Odd Fellows hall. So many members are away on vacations that the attendance was below normal, but enough were present for the transaction of routine business and to admit to enrollment Mrs. W. H. Verity, who came into the tent by transfer. A social meeting in which the Sons of Veterans will join, will probably be held two weeks hence, according to the president, Mrs. Cora Jones.

GLENDALE SHOWS INTEREST IN FAIR

Glendale was more largely represented than any other of the eleven cities that are participating in arrangements for the San Fernando Valley Fair at the general meeting of divisional chairmen for the Women's Department, held in Burbank yesterday afternoon. The Glendale delegation included Mrs. Ella Richardson, general chairman for Glendale; Mrs. A. H. Montgomery, culinary chairman; Dr. Caroline Paine Jackson, chairman of Child Welfare; Miss Eva Daniels, chairman of Needlework; Miss Alice Frank, chairman of Art; Mrs. C. W. Houston, chairman of Plants and Flowers. Jas. M. Rhoades, secretary of the Glendale Chamber of Commerce, was present to address the meeting, and there was quite a delegation of committee members, including Mrs. Bert Woodward, Mrs. Margaret Biggs, Dr. Jessie Russell, Mrs. S. V. Phillips.

Mrs. Harry Houston of San Fernando, general chairman of the Woman's Department, presided, and introduced E. R. Elkins, general director of the fair, who made many interesting statements concerning its character and scope, and exhibited some of the premiums to be offered, one of special interest being an electric chafing dish, which will be given to the club making the largest number of exhibit entries in proportion to its membership.

Tuesday Afternoon Club members who attended, were particularly interested in the assurance given by the fair management that the club would be allotted space for a lunch counter or food sale if it cared to conduct one during the fair as a benefit for its club house fund.

OIL WELLS AFLAME

COPENHAGEN, Aug. 10.—Eighteen naphtha wells are aflame on the outskirts of Baku, in the heart of the rich Caucasus oil fields and the inhabitants of the neighboring villages are in flight, fearing a general conflagration, said advices from Moscow today.

No Chance to Argue

Chollie—Do you believe that silence gives consent? Mollie—I certainly do. Chollie—Then when I ask your father for your hand in marriage manage to have your mother in the room.

Mr. and Mrs. Lester Jones, accompanied by J. J. Crawford, are leaving next week by auto to drive to Portland, Oregon, where they will be guests of Mr. Jones' sister. They plan to be gone for several weeks.

Mr. and Mrs. Max Green of South Jackson street, who are camping at Idylwild, report they are having a lovely time, and will probably be home the last of the week. Miss Mary Florence Tate of L. A. Canada, is caring for their children during their absence.

Mr. and Mrs. Sinclair Woods, who reside at 512 East Doran street, their little son and daughter, Jack and Betty; Mrs. W. W. Simpson, sister of Mrs. Woods, and her son, William Simpson, left by auto this morning for San Diego, La Jolla and Tia Juana. They will be gone until the first of the week.

Mrs. David Gregg reports that her daughter, Dottie, who has been seriously ill and confined to her bed for four weeks by pleuro-pneumonia, has so far advanced along the road of recovery that her doctor promises she can sit up by the end of the week. Mrs. Gregg's daughter and son-in-law, Mr. and Mrs. Dana Burket, have motored to Sequoia National Park for a two weeks' outing. They will camp near the J. G. Huntley family. Margaret Gregg and Evelyn Huntley are having a glorious time, if their glowing letters are any criterion of their real sentiments.

Why It Is Necessary

"Why is scantiness of attire considered so necessary in art?" "You see," replied the eminent sculptor, "it takes a long time to make a statue and we couldn't afford to have it left on your hands because the clothes were out of style."

There are sixteen eggs in cold storage for each person in America. And doubtless some of them have been there since the 16-1-1 days.
